"Italian style means sense of proportions, simplicity and harmony of line, such that after a considerable time there is still something which is more alive than just a memory of beauty."

[Battista 'Pinin' Farina]

by pininfarina

Pininfarina Extra, is part of the world-famous design house Pininfarina, whose history traces back to 1930 when the company was established by Battista Pinin-Farina, who became the most acclaimed car designer of his time. For example the Cisitalia 202 by Pininfarina (1947), was the first and only car to enter into a permanent display at the MoMA of New York, in 1961. Up to today, more than 100 Ferrari cars that have gone into production have been designed by Pininfarina.

In 1986, the third generation of the Pininfarina family created Pininfarina Extra srl to extend the design capabilities of the company, outside of the automotive sector. Over the past 30 years, Pininfarina Extra has developed more than 600 projects under the direction of its President and Chief Executive Officer, Paolo Pininfarina (now Chairman of the Pininfarina Group), and has established its own direction and a clear identity.

Today the company has ventured into a variety of commodity sectors where products bearing the Pininfarina name have won acclaim in the world's leading markets. The company attempts to blend the most advanced features of scientific, technological and engineering research with attractiveness that should accompany the things we use every day. Pininfarina Extra is a reliable and competent partner to firms wishing to use design as a strategic asset for their product development process and a tool of communication to improve their position in the market.

The main activities of the company include Industrial design (electronics, sporting goods, furniture, equipment and machinery, consumer products, graphic design and packaging), Architecture and interiors (residential, hospitality, sport and commercial structures), and Transportation design (Yachts, airplanes, private jets, people movers).

Armonia

by pininfarina

The winning combination between Pininfarina and Hifold continues through the launch of a new iconic outdoor sofa. After the successes of Bold and Onda, a new masterpiece becomes part of the Hifold by Pininfarina family.

“Armonia” has been conceived to bring the elegance of the interior environments to the outdoor spaces, creating a seamless and elegant living experience. The juxtaposition of contrasting elements is the main component around which the design language of this new sofa plays. The use of wood and braided rope gives it an artisanal and classic look, balanced by the modernity of the clean lines and the shaped body. The play of contrasts continues through the dualism between soft and rigid surfaces, full and empty spaces, modernity and past, reflecting the style of Pininfarina centered on the tradition of the new.

Dualities and contrasts, however, are not meant to create splits, but as a constant tension towards a new balance to create harmony. Finally, the use of specially designed materials allows this sofa to be enjoyed in outdoor environments in total safety and ensuring top performance against atmospheric agents without compromising aesthetics and comfort.

“Armonia” joins to the list of products designed by Pininfarina for Hifold, a collaboration born in 2017 that over the years has seen two excellences in the field of furniture give ample vent to their creative flair.

DESIGN OF PININFARINA OUTDOOR FURNITURE

Inspired by the lightness of wing, the archetype par excellence that combines lightness and strength in the WING collection, the designers were guided by the concept of physical and perceived lightness.

The dynamic, pure and elegant lines give the collection a style suitable for both urban contexts and environments where nature is the protagonist. The elements of the collection are characterized by a folded aluminum structure and enriched by geometric and essential lines that recall the world of architecture.

Onda

OUTDOOR FURNITURE COLLECTION DESIGNED BY
PININFARINA FOR HIGOLD

Onda was born to blend in different environments and, at the same time, to make them unique.

Being conceived for the outdoor, the Pininfarina design team took the inspiration from the dynamism, elegance and purity of the ocean waves, the empty space that is created when a wave is broken, resulting in to a hollow or tube wave (onda in Italian).

The heart of the Collection is the structure, an aluminum band sustaining the cushions and becoming the iconic element of the whole Collection. Characterized by fluid lines - as the ones of the wave - the band beyond being an aesthetic element becomes also a functional element, a rigid armrest that can be used to lean objects. The choice of the materials come from the Pininfarina 360° design experience: the aluminum - coming from the car sector - for the structure , the fabrics - used in the yachts for its resistance - for the cushions.

"We have looked at the magic of nature to give life to Onda which is distinctive and, at the same time, able to be integrated in different environments. Technology and know-how coming from different sectors make it really unique" affirms Paolo Pininfarina, Pininfarina Chairman.

"Pininfarina always brings breakthrough visions and futuristic designs to the world. The design of Onda is influenced by car design in the technology and in the use of top materials. We are sure the new revolution is ready in the outdoor furniture industry!" affirms Alwin Ou, Chairman of Higold Group.

Onda is the second project born from the collaboration between Higold and Pininfarina, after the Higold headquarters in Shunde presented in march 2017.

Our carefully selected materials enable Onda to adapt to all-weather outdoor environments and ensure its ideal performance without compromising aesthetics and comfort, bringing you an unforgettable outdoor experience.

INSPIRED BY CAR SECTOR STRUCTURE, EMPHASIS AND EXPOSURE OF THE INTERNAL HEAVY DUTY ALUMINUM STRUCTURE PROVIDES A SENSE OF SECURITY TO THE USER, IT ALSO CREATES A DISTINCTIVE VISUAL AESTHETIC.

THE CHOICE OF THE MATERIALS COME FROM THE PININFARINA 360° DESIGN EXPERIENCE: THE ALUMINUM - COMING FROM THE CAR SECTOR - FOR THE STRUCTURE , THE FABRICS - USED IN THE YACHTS FOR ITS RESISTANCE - FOR THE CUSHIONS.

ONDA DAYBED HAS WON IF DESIGN AWARD 2020 FOR ITS ELEGANCE AND PURITY. TOP QUALITY AND ENVIRONMENTAL-FRIENDLY COATING FINISH AND BATYLINE CAN WITHSTAND ALL KINDS OF OUTDOOR CONDITIONS. ITS BACK CAN BE ADJUSTED AT MULTIPLE ANGLES TO MEET THE NEEDS OF USERS.

FACILITATED WITH LED ILLUMINATING SYSTEM, ONDA LIGHTING ACCESSORY IS A BREAKTHROUGH EITHER FROM DESIGN OR FUNCTION PERSPECTIVES.

In a game of solids and voids, of lights and shadows, the RIVA collection is born. It takes inspiration from the Moorish style of Andalusian architecture and it is characterised by its severe and essential lines. The empty spaces, created by the particular making of the yarn, bring to mind the arches of the Palace of Carlos V in Granada. A touch of Spain in your house.

BORROMEO

Designed By CLAUDIO BELLINI Studio

A voyage to Europe in the summer and observing the wonderful blue reflections of the Mediterranean Sea, the concept is inspired by and conceptualized with the feeling that takes one to a sunny day near the seaside with an easy breeze blowing. Borrromeo collection is a result that blends the expertise and know-how of HIGOLD with natural and pure elements in perfect harmony. This unique collection is where the simplicity of natural rope is combined with the modern lines of aluminum accurately to bring to life a feeling like no other. Mixing and blending conventional design with pleasant nostalgia! The scattering of sunlight by the molecules of the water inspires the textures and feel of this collection and is a reminder to relax and unwind in it.

It is a comfortable sofa allows you to spend many hours relaxing, and good lavish and attractive furniture makes your house and garden more attractive.

It has a natural lightness and elegance but never loses its sturdiness and comfort.

DESIGNER

Pierrick Taillard HIGOLD CHIEF DESIGNER

piKs design, A family affair

At piKs design, everyone's know-how and influences intersect, collide and blend. The family is their foundation; meets a creed.

Graduated from Rubika (FR. Valenciennes), Christine and Pierrick joined Sylvain - specialized in marketing - to pursue a Masters in Entrepreneurship and Innovation Management at IAE (FR. Lille) and co-founded piKs in 2005.

Coming from industrial culture and the arts, designers pay attention to both distant cultures and their daily environment.

Followers of creative eclecticism, they combine craftsmanship and industrial thinking to reinvent the relationship between user and object, while playing on a permanent reappropriation of the repertoire of forms with elegance, simplicity and pragmatism.

Salvador Dali, a Spanish surrealist artist renowned for his technical skill, precise draftsmanship and the striking and bizarre images in his work. Salvador Dali invented an infallible method to make micro-naps that revive two times, three snores. Armed with a silver spoon and a porcelain plate, he would settle down in his armchair, once he was well installed, he would close his eyes... and fall asleep. When the spoon fell, breaking the plate, it was time to wake up.

Pierrick Taillard, as an experienced designer in France, is a respected follower of Salvador Dali, and he take this method into his master piece Lisboa.

Generous in its proportions, comfortable and airy, based on a solid and elegant aluminum frame foundation, a color rope belt is emerged. This nest hand woven by the best craftsmen will impress you with its softness. It is an armchair invites you to the Mediterranean relaxation.

Under the shade of tropical trees, lie down quietly, smell the perfumes and let the birds sing.

Set on a soft and supple nest, like a caress, let the voluptuousness of its curves welcome you into its heart to transport you to your sweetest dreams, and enjoy the sweetness of a Mediterranean siesta and eat life to the fullest.

CANTON FAIR DESIGN AWARDS

WING

Inspired by the lightness of wing, the archetype par excellence that combines lightness and strength in the WING collection, the designers were guided by the concept of physical and perceived lightness.

The dynamic, pure and elegant lines give the collection a style suitable for both urban contexts and environments where nature is the protagonist. The elements of the collection are characterized by a folded aluminum structure and enriched by geometric and essential lines that recall the world of architecture.
